CERTIFICATION

The undersigned attorney certifies, pursuant to Federal Rule of Civil Procedure 11(b) and the equivalent state rule applicable to this matter, that:

Counsel has reviewed each citation in this filing against a primary legal research database and has confirmed that each cited authority exists, is accurately quoted, and is cited for a proposition it supports. Every signing attorney has personally verified the authorities relied upon in the portions of the filing they drafted, reviewed, or adopted. Any output generated by a generative AI tool has been reviewed, revised where necessary, and adopted as counsel's own work product, consistent with Fed. R. Civ. P. 11(b), Model Rules of Professional Conduct 1.1, 3.3, and 8.4(c), and ABA Formal Opinion 512 (July 29, 2024).

Any use of generative AI by nonlawyer personnel in connection with this filing was subject to direct attorney review and verification, consistent with Model Rule 5.3. Counsel has inquired of all experts and vendors whose work product is incorporated in this filing and has received representations that any AI tool use by such experts or vendors was subject to equivalent verification procedures.

Why this template

Most state supreme courts (Illinois, New Jersey, Michigan, Massachusetts, Florida) and most federal courts impose no affirmative AI-disclosure requirement on filers. The defensible default in those courts is a certification that a human verified the work — not a disclosure of the tools used. This template delivers that certification in a form suitable for attachment to any pleading, motion, brief, or memorandum of law.

AFFIRMATIONS

- I have personally read every cited authority in the portion of the filing for which I am the signing attorney.
- I have confirmed each cited authority exists, is correctly quoted, and stands for the proposition for which it is cited.
- Any AI-generated content has been reviewed, revised as necessary, and adopted as my own work product.
- I have inquired of co-counsel, paralegals, experts, and vendors whose work product is incorporated about their AI use and have obtained equivalent verification representations.
